

Diesel Guard Premium Diesel Additives

The petroleum industries highest quality premium diesel additive.

This complete multifunctional formulation provides heavy duty diesel engines a full range of performance benefits for maximum operating efficiency.

Formulations include various levels of cetane improver, injector detergent, lubricity improver, stabilizers, moisture dispersant, corrosion and oxidation inhibitors.

The key to peak diesel engine performance is clean and deposit free injectors. The Diesel Guard Supreme detergent package meets or exceeds the rigorous Cummins L-10 Superior rating for injector deposit cleanliness. Proper use will provide injector deposit clean-up and keep clean benefits which help provide the exacting fuel spray patterns needed for proper fuel ignition and combustion.

Use of Diesel Guard Supreme has been documented under industry, laboratory, and field tests to:

- Improve fuel economy.
- Improve fuel lubricity.
- Reduce smoke and emissions.
- Extend engine life.
